

THERE'S A "FAKE" DOLLAR BILL ENCLOSED WITH THIS LETTER.

Take a look at it before you read another word.

Your Money Doesn't Feel the Same Anymore - And There's a Reason for That

I had a moment recently that stuck with me.

I was standing in line at the store...just picking up a few basic things.

Nothing unusual.

But when the total came up, I paused. Because it didn't feel right.

Not because I bought something different...

But because the same things cost more. Again.

You've probably felt the same way.

And that's when it really hits you. Something has changed.

And you're not imagining it

Take a look at the "dollar bill" I sent you.

It's smaller. That's intentional.

Because that's exactly what your money feels like right now.

So here's what I want you to do:

Tape it somewhere you'll see it every day.

On your fridge. Your mirror. Your car.

Because every time you see it, I want you to ask yourself one simple question:

*"Why does it feel like I'm falling behind...
even when I'm doing everything right?"*

My name is **Amy Groves**.

I'm running to represent you in **Assembly District 19**.

And I'm running because politicians today aren't living in the same reality you and I are.

This didn't just "happen."

What you're suffering right now isn't random.

It's the result of bad decisions made by people in Carson City.

You're paying more than you think

You're taxed when you earn (*income tax*).

Taxed when you spend (*sales tax*).

Taxed when you own (*property tax*).

In fact, most families are paying **20 or more** different taxes and fees every year...

That adds up. Fast.

And many don't even realize it.

And what are we getting in return?

Schools scraping the bottom of the national rankings.

Crime stalking our neighborhoods.

And the laws we already have?

Sitting on the shelf - collecting dust – unenforced.

Let's stop pretending this is a money problem. It's not.

It's a leadership problem.

I come at this differently

What will you get if you elect me?

A business owner/job creator's mindset.

I've had to make tough calls. Balance real budgets.

Be accountable for results - no excuses.

If I'm representing you, that means...

Your tax dollars get treated with respect.

Your problems get solved instead of studied.

You get straight talk - not political hot air.

Too many decisions are being made by people who've never had to live with the consequences.

People who go along with the lobbyists and insiders.

Approve special deals – like the “Hollywood Handout.”

That's not how I operate.

Here's what I'll do instead

I'm focused on three things:

- Safer streets
- Smarter kids
- Smaller, more affordable government

And that starts with simple, common-sense solutions.

Like making car registration more affordable.

I support a **flat \$60 car registration fee**.

Simple. Fair. Predictable.

And just as important: **No new taxes!**

Because the problem isn't that government doesn't have enough money.

It's that it's taking too much - and delivering too little.

That's why I've signed the **Taxpayer Protection Pledge**.

Which means I'll oppose and vote against ANY and all efforts to raise you taxes.

Now it's your decision

That “dollar bill” I sent you? It represents a real problem.

And it's not going to fix itself.

That's where you come in.

This election comes down to a choice.

More of the same...or a completely different direction.

I'm asking for your vote.

And if you believe it's time to bring real change to Carson City...

I'm asking for your help.

Because campaigns like this aren't powered by insiders.

They're built one person at a time.

If you can, please send back a contribution of \$20, \$10, or \$5 today.

Every dollar helps us reach more voters, spread this message, and win this race.

Don't forget what that "dollar bill" represents

Keep it where you'll see it. And when you're ready to cast your ballot...

Remember what this election is really about.

And remember the name at the bottom of that "dollar bill" when you vote:

Amy Groves

Sincerely,

- *Amy*

P.S. You've already seen what's happening to your dollar.

Now here's the question: **What are you going to do about it?**
